

## Snap Seal™ Vials and Snap Top Caps™ for 96-Square Deep Well Microplates

- Designed to fit 96-Square Deep Well Microplates.
- Choice of glass conical and tapered vials in 3 sizes: 0.4mL, 0.75mL, and 0.8mL.
- Glass vials provide an inert solvent resistant environment for samples.
- Conical and tapered design of the vials allows sample access down to 10µL.
- Compatible with autosamplers and robotic systems.

Conical vials are manufactured of Type I Borosilicate Glass

8mm OD vials fit securely in 96-square deep well plates like Greiner, Matrix and Ritter

Use 8mm Precision Fit Snap Cap to seal individual vials

### Conical and Tapered Glass Snap Seal™ Vials, 8mm Crimp Finish

Cat. No.	Description	Qty
9920-96PP	96-Square Deep Well Polypropylene Plate	1
30408-822*	0.4mL Glass Conical Snap Seal Vial, 8 x 22mm, 8mm Crimp Finish	100
307508-836	0.75mL Glass Conical Snap Seal Vial, 8 x 36mm, 8mm Crimp Finish	100
30808T-846	0.8mL Glass Tapered Snap Seal Vial, 8 x 46mm, 8mm Crimp Finish	100

\*0.4mL conical vial must be capped prior to placement in the 96-well microplate

### Precision Fit Snap Top Caps™ for Conical and Tapered Glass Snap Seal™ Vials, 8mm Crimp Finish

Cat. No.	Description	Qty
5810-08	8mm Precision Fit Clear Snap Cap, 10mil PTFE	100
5840-08	8mm Precision Fit Clear Snap Cap, PTFE/Butyl Rubber	100
5850-08	8mm Precision Fit Clear Snap Cap, PTFE/Silicone	100
5860-08	8mm Precision Fit Clear Snap Cap, PTFE/Silicone/PTFE	100
5870-08	8mm Precision Fit Clear Snap Cap, PTFE/Silicone w/Slit	100
